Case#47ECA72346

Dear Hon. Denise L Cot  
Daniel Patrick Moynihan  
United States Court House

My name is Carly J Saint Sauveur and I am a waste management employee. On January 1, 2021 someone hacked into the company computer data system and they stole my whole information including my social security, driver license, bank information, and more. This caused a Fraud on my name and now I'm paying for the fraudulent activities that occurred on January 2021. Also, this caused my credit score to drop and destroyed my whole life. It is not fair that now I'm paying for it. The Fruad made it difficult for me to buy a house last year and gave me some issues with my car loan. Now I have to put more money down to pay for my mortgage all because of this fraudulent activity. I don't wish to keep suffering from this. If there is anything you can do to remove this fraudulent activity from my credit report, please take action, thank you.

Sincerely,

Carly J Saint Sauveur
